3.45-4.45pm Plenary

Break (15min)

5-6pm Conclusions and closing

I had a question about the proposed agenda for the livestock dialogue in this respect. Is there any reason why you did not include for example NAFAN from Nepal (Shova Neupane) or Avtandil Geladze from Georgia as speakers? I think they could actually give a very nice brief presentation on the situation in their country and their ideas for a campaign. Avtandil would need translation from Russian, btw., but I think Andrey could help with that. Dennis Mombauer from SLYCAN/50by40-Sri Lanka could probably give a presentation on the national situation there as well.

It would be nice to include some more general introductions about the problematique too. Swetha could perhaps introduce 50by40 and share some views on the situation in India and globally? I also think it could be worthwhile to invite Kirtana from GRAIN and Rhoda to give a general introduction about the problems with industrial food production and why livestock is at the heart of that.
